

OBI - IDO training

16.04.2026

Lars Berthinussen, Managing Director, PCA

ISO 23726 (3 and 100)

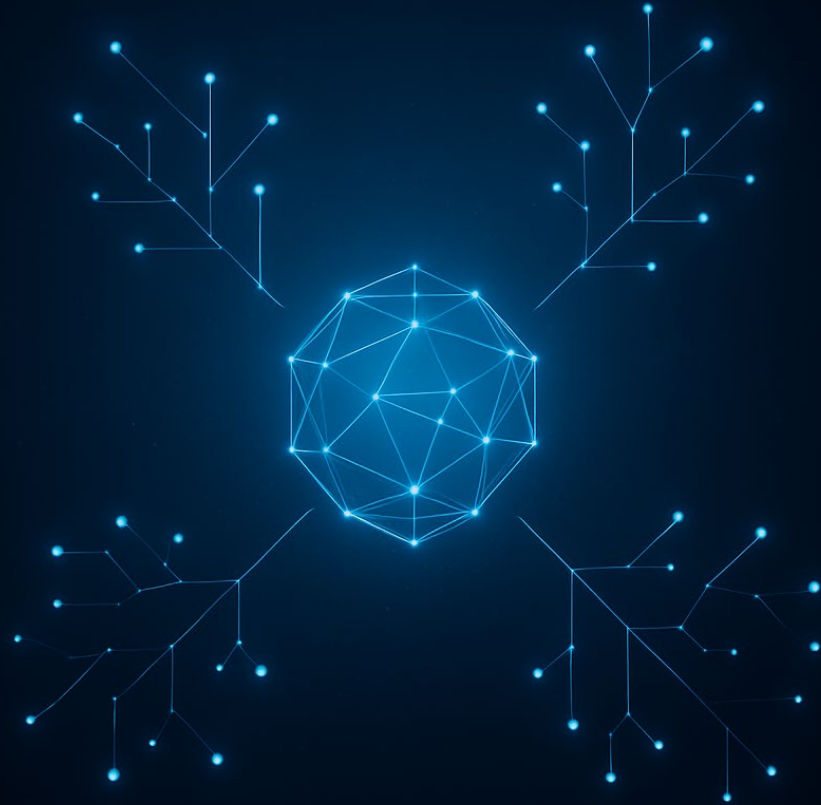

Maintenance Agency

- Covers IDO and SDO ontologies
- Maintain and publish ontologies
- Process Change Requests
- Add/modify entities
- Updated more frequently than standard documents
- Publish versioned updates

MA Features

- Persistent URIs
- Access to current and past versions
- Machine-readable and interoperable data
- Includes SDB Manager and SDB Team
- Experts from ISO committee and liaisons

Key Takeaways

- Ensures ontologies are up-to-date
- Enables faster evolution than traditional standards
- Supports interoperability and accessibility
